I. Introduction

Novant Health Forsyth Medical Center, in partnership with the Forsyth County Department of Public Health, Forsyth County community partners and Wake Forest Baptist Health, conducted a community health needs assessment in 2017 to identify the most pressing health needs in our community. Novant Health Forsyth Medical Center will enhance the community's health by offering health and wellness programming, clinical services and financial support in response to the specific health needs identified.

a. Organization Overview

Novant Health Forsyth Medical Center is an integral part of the Novant Health system (collectively known as "Novant Health"). Novant Health (NH) is a non-profit integrated health care system of 15 medical centers and a medical group with over 575 clinic locations. Other facilities and programs include outpatient surgery and diagnostic centers, charitable foundations, rehabilitation programs, and community health outreach programs. Novant Health and its affiliates serve their communities with programs including health education, home health care, prenatal clinics, community clinics and immunization services. Novant Health's over 28,000 employees and 2,500 physician partners care for patients and communities in North Carolina, South Carolina, and Virginia.

Mission

Novant Health exists to improve the health of our communities, one person at a time.

Our employees and physician partners strive every day to bring our mission, vision and values to life. We demonstrate this commitment to our patients in many different ways. Our organization:

- Maintains an active community health outreach program.
- Demonstrates superior outcomes for many health conditions as indicated by our state and national quality scores.
- Creates innovative programs that address important health issues, with many of our programs and services being recognized nationally.
- Believes in its role as a good corporate citizen, working with community agencies and organizations to make our communities better places to live and work.

Novant Health Forsyth Medical Center (NHFMC), a 921-bed hospital, offers a full continuum of emergency, medical, surgical, rehabilitative and behavioral health services. Centers of excellence include Novant Health Rehabilitation Center, Novant Health Maya Angelou Women's Health & Wellness Center, Novant Health Heart & Vascular Institute, Novant Health Derrick L. Davis Cancer Center, Novant Health Stroke & Neurosciences Center, Novant Health Orthopedic Center and Novant Health Forsyth Medical Center Behavioral Health.

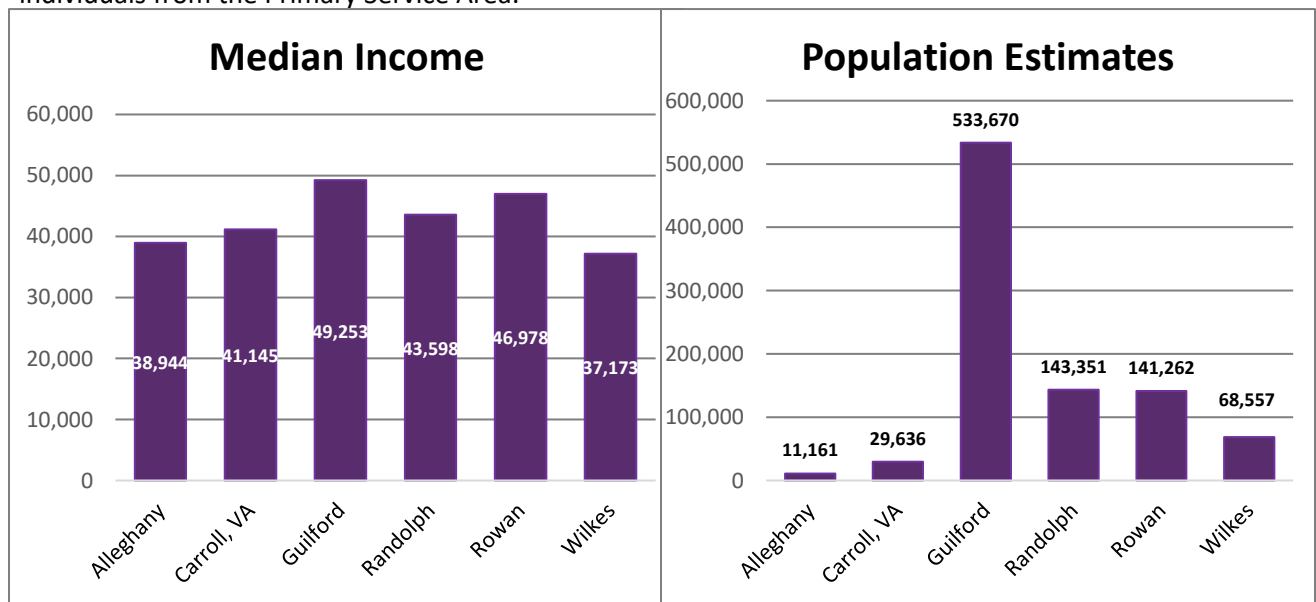

b. Our Community

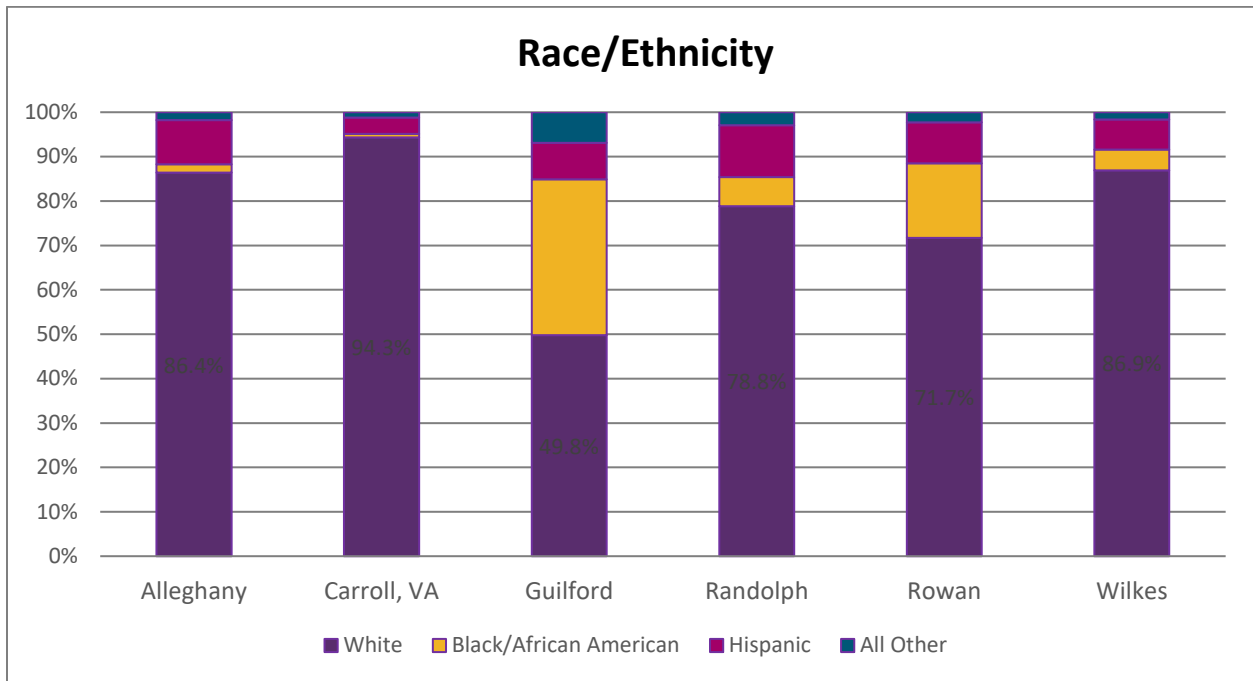

Primary and Secondary Service Areas

The Primary Service Area for Novant Health Forsyth Medical Center is defined by the zip codes that represent more than 75% of the hospital’s in-patient population as outlined below:

Zip Code	City	County	Zip Code	City	County
27006	Advance	Davie	27055	Yadkinville	Davie
27012	Clemmons	Forsyth	27101	Winston Salem	Forsyth
27018	East Bend	Yadkin	27103	Winston Salem	Forsyth
27021	King	Stokes	27104	Winston Salem	Forsyth
27023	Lewisville	Forsyth	27105	Winston Salem	Forsyth
27028	Mocksville	Davie	27106	Winston Salem	Forsyth
27030	Mount Airy	Surry	27107	Winston Salem	Forsyth
27040	Pfafftown	Forsyth	27127	Winston Salem	Forsyth
27045	Rural Hall	Forsyth	27284	Kernersville	Forsyth
27052	Walnut Cove	Forsyth	27295	Lexington	Davidson

Forsyth County is the largest county in Novant Health Forsyth Medical Center’s Primary Service Area. Though there are 6 counties in the Novant Health Forsyth Medical Center Primary Service Area, including Davidson, Davie, Forsyth, Stokes, Surry and Yadkin, 78% of the patients in the Primary Service Area reside in Forsyth County, while 62% of the patients in the Primary and Secondary Service Areas reside in Forsyth County. A comparison was conducted to ensure that the community assessment did not exclude medically underserved, low-income, or minority populations who live in the geographic areas from which the hospital draws its patients. A comparison of county data from each geographic area from which the hospital draws its patients was conducted. Based on comparison of race/ethnicity, median income, educational attainment, persons in poverty and foreign-born individuals, Forsyth County represents the highest population of potentially underserved, low-income and minority individuals from the Primary Service Area.

<http://accessnc.commerce.state.nc.us/docs/countyProfile/NC/37067.pdf>

Forsyth County is mostly urban in nature, with only 7.4%² of the population living in rural areas. The county consists of a large urban center surrounded by smaller, more rural communities. Based on 2018 estimates, Forsyth County remained the fourth largest county in the State of North Carolina with 379,099 residents³. From 2020 to 2030, the population of Forsyth County is projected to grow by 4.0% which is down from 7.0% for the 2010-2020 period. Adolescents (individuals 18 and younger) make up an estimated 22.9% of the population in Forsyth County, while seniors (individuals 65 and older) make up 16.0% of the population³

Forsyth County residents earn a median income that is slightly lower than the North Carolina state average. According to the U.S. Census 2017 American Community Survey, roughly one-third (33.3%) of Forsyth County residents have attained a bachelor's degree or higher⁴. A key indicator to evaluate economic condition of Forsyth County is the poverty rate. The poverty rate for Forsyth County residents continues to be higher than the North Carolina state average by 3.0%, and the poverty rate for children (ages 0-17) in Forsyth County, is 5.8% higher than the NC State average.

Median Household Income		Population Educational Attainment (≥ 25 yrs. old)		Poverty Rate	
Forsyth County	\$48,369	< HS diploma/GED	11.5%	All ages (Forsyth County)	19.1%
		HS diploma/GED	25.3%	All ages (North Carolina)	16.1%
North Carolina	\$50,320	Some college or associate's degree	29.4%	Children (0-17) (Forsyth County)	28.7%
		Bachelor's degree	20.7%	Children (0-17) (North Carolina)	22.9%
		≥ Graduate degree	12.6%

II. Prioritized Health Needs

a) Identified Significant Health Needs

Through various data collection measures, and after analyzing and interpreting Forsyth County's primary and secondary data these issues have been identified as social, clinical, behavioral and health outcomes.

The identified health needs included the following:

- Drug Overdose
- Mental Health
- Chronic Diseases including Oral Health
- Communicable Diseases & Sexual Health
- Maternal & Infant Health
- Health Disparities/Quality of Life
- Lack of Trust
 - Lack of cultural competency of clinical staff
 - Poor Treatment or misdiagnosis from clinical staff
 - Stress influenced by political environment
- Lack of Resources
 - Lack of time
 - Lack of Money
 - Overwhelmed by cost of care, insurance, and /or healthy foods
 - Overwhelmed by feeling of stress/anxiety
- Lack of Awareness
 - Limited understanding of how to access care
 - Limited health literacy
 - Learning how/where to access available resources is challenging
 - Hesitancy to take medication

b) County Prioritization

In Forsyth County in 2017, a combination of online surveys and paper surveys were conducted to ask constituents to rank the top health issues impacting the community. The calculated scores were used to rank the focus areas, and the weighted rankings from the community opinion surveys and the priority focus exercise were combined.

Recommended Prioritized Health Outcomes

Based on the results of the Forsyth County priority setting survey, the following health needs were recommended for prioritization in Forsyth County:

- Chronic Diseases with a Focus on Physical Activity
- Oral health (age 0-5 years)
- Sexual Health
- Maternal and Infant Health

Facility prioritization

In addition to the community rankings, Novant Health Forsyth Medical Center reviewed the top five diagnosis codes for inpatient and outpatient hospital emergency room visits year-to-date January to July 2019.

Novant Health Forsyth Medical Center Emergency Department
Top 5 Diagnoses July – December 2018

Inpatient		Outpatient	
Diagnosis	Volume	Diagnosis	Volume
Sepsis, unspecified organism	104	Acute upper respiratory infection, unspecified	406
Chronic obstructive pulmonary disease w (acute) exacerbation	38	Chest pain, unspecified	368
Acute respiratory failure with hypoxia	34	Other chest pain	366
Acute kidney failure, unspecified	29	Headache	364
Tied: Hypertensive heart disease with heart failure/ Hypertensive heart & chronic kidney disease (stage 1-4) with heart failure	23	Urinary tract infection, site not specified	280

A review of the hospital emergency room visits indicated that many of the top inpatient diagnosis codes are correlated with chronic issues affecting the aging population. Upon analysis of the outpatient diagnosis codes, it was apparent that many of the patients seen had symptoms that could be related to a number of chronic conditions, including (but not limited to) heart disease, obesity, diabetes, chronic stress, and chronic issues related to aging.

Upon a comprehensive review of the community’s recommended prioritized outcomes and NHFMC’s ED top 5 diagnosis codes, the Novant Health Forsyth Medical Center leadership team and Novant Health Triad Board of Trustees evaluated this information based on the scope, severity, health disparities associated with the need, and the estimated feasibility and effectiveness of possible interventions. Through this thorough evaluation, the team agreed on the following three top significant health priorities for Novant Health Forsyth Medical Center:

1. Chronic Disease
2. Mental Health
3. Lack of Trust, Resources and Awareness: Specifically focused on limited access to care and healthy foods, poor health literacy, limited cultural competency among providers, and chronic stress.
4. Maternal and infant health

c) Issues identified for remediation

Novant Health Forsyth Medical Center is committed to working to address each of the identified areas of need through resource allocation and support of the following programs:

IDENTIFIED PRIORITY:	PROGRAM:	ACTION:	INTENDED OUTCOME:
1. Chronic Disease	Remarkable You screenings (A1C, Cholesterol, BMI, Blood Pressure) and educational programs	Early detection of chronic disease and connection to a system of care in high priority areas	Improved health
2. Mental Health	Community education and screening	Early detection of mental health diagnosis and connection to resources	Improved health
3. Lack of Trust, Resources and Awareness: Specifically focused on limited access to care and healthy foods, poor health literacy, limited cultural competency among providers, and chronic stress.	Neighborhood Engagement	Targeted outreach in priority areas to better understand available resources and capacity for SDoH providers	Increased trust in healthcare system
4. Maternal and infant health	Support for new moms and children birth to five	Targeted wrap around services including lactation support, home visits, and other various services.	Improved health

d) Unaddressed health needs

Although Novant Health Forsyth Medical Center is working to address several significant needs in the community, we are unable to impact all identified county priorities, but will support community partners as appropriate with the following known issues:

Need	Explanation
<ul style="list-style-type: none">• Drug Overdose• Communicable Diseases & Sexual Health• Health Disparities	Other agencies addressing need
<ul style="list-style-type: none">• Access to Care	Community coalitions in existence to help address need from a collaborative-based approach
<ul style="list-style-type: none">• Quality of Life	Outside of Novant Health Forsyth Medical Center’s scope of services

e) Role of the board and administration

The Novant Health Triad Region Board of Trustees and Novant Health Forsyth Medical Center administration are active participants in the community benefit process. Through strategic planning initiatives focused on chronic disease, community health outreach, and access to care, leadership provides direction on actions and intended impact, and serves as the approving body for the community health needs assessment and community benefit implementation plan. Administrative leaders serve on the County assessment process teams, priority setting committee and action planning team and hospital board members participate and provide influence to the community benefit plans. All members are actively involved in the priority setting discussion and outreach planning process. Additionally, community benefit reports are provided to the board and facility leadership teams throughout the calendar year for ongoing education.
