Novant Health UVA Health System Culpeper Medical Center  
2019 Fact Sheet

Overview
Novant Health UVA Health System Culpeper Medical Center is a 70-bed community hospital with a comprehensive offering of services in emergency, surgery, imaging, women’s and children’s health, cancer care and rehabilitation. We are a part of Novant Health UVA Health System, an integrated network of physician clinics, outpatient centers and medical centers that gives patients access to advanced, quality care delivered with a personal touch. Founded in 2016, the network is a joint operating company between Novant Health and UVA Health System that provides subspecialty care and groundbreaking clinical trials – with the support of UVA Health System – along with urgent, express and primary care in Virginia. Headquartered in Manassas, Virginia, Novant Health UVA Health System is committed to providing quality care close to home.

Donna Staton, president
History
More than 50 years ago, a group of women saw a need for a hospital in Culpeper and raised the money needed to open Culpeper Memorial Hospital. Building on their mission to provide quality, convenient care, the medical center continued to grow to meet the changing needs of its community. Culpeper Hospital affiliated with the University of Virginia Health System in 2009. In 2016, Novant Health’s Virginia operations, including Novant Health Haymarket Medical Center, Novant Health Prince William Medical Center, Novant Health Cancer Center, Novant Health Caton Merchant House and the Novant Health physician clinics, joined UVA Culpeper Hospital to form Novant Health UVA Health System. Today the facility is known as Novant Health UVA Health System Culpeper Medical Center.
