Novant Health Clemmons Medical Center  
2019 Fact Sheet

OVERVIEW
Novant Health Clemmons Medical Center is a 36-bed hospital offering emergency, imaging, laboratory, surgery and orthopedic services. The medical center first opened in April 2013 and was expanded to a full-service hospital in August 2017. The medical center is part of Novant Health, a four-state integrated network of physician clinics, outpatient facilities and hospitals that delivers a seamless and convenient healthcare experience to our communities. The Novant Health network consists of more than 1,600 physicians and over 29,000 employees that provide care at over 640 locations, including 15 medical centers and hundreds of outpatient facilities and physician clinics. Headquartered in Winston-Salem, North Carolina, Novant Health is committed to making healthcare remarkable for patients and communities, serving more than 5 million patients annually.

By bringing together world-class technology and clinicians to provide quality care, we are committed to creating a healthcare experience that is simpler, more convenient and more affordable so patients can focus on getting better and staying healthy.

HISTORY
In December 2009, Novant Health was awarded a certificate of public need to build an acute care medical center in Clemmons, North Carolina. Clemmons Medical Center is Novant Health’s 13th medical center. The medical center first opened in April 2013 as a two-story/40,000 square foot facility with emergency, imaging, laboratory and surgical services. In December 2014, a medical office building was added to the campus housing primary care and specialty clinics. In August 2017, Clemmons Medical Center was expanded to become a full-service hospital with 36 beds, six observation beds and three additional operating rooms, bringing the total to five. Novant Health’s total investment in Clemmons Medical Center is $78.4 million.
