

N:

**Cough. Sniffle. Sneeze.
No antibiotics please.**

**Treat colds, cough illnesses and flu with care.
Talk to your healthcare provider.**

Antibiotics aren't always the answer. They don't fight the viruses that cause colds, cough illnesses and flu. What will? Fluids and plenty of rest are best. Talk to your healthcare provider. Find out when antibiotics work — and when they don't. The best care is the right care.
