Novant Health Forsyth Medical Center 2022 Fact Sheet

Overview

Novant Health Forsyth Medical Center is an 859-bed hospital offering a wide range of services in emergency, medical, surgery, neurology, critical care, oncology, women’s health and wellness and behavioral health. Centers of excellence include the Maya Angelou Women’s Health and Wellness Center, Heart and Vascular Institute, Derrick L. Davis Cancer Institute, Stroke and Neurosciences Center, Orthopedic Center and Behavioral Health. We are part of Novant Health, a three-state integrated network of physician clinics, outpatient facilities and hospitals that delivers a seamless and convenient healthcare experience to our communities. The Novant Health network consists of more than 1,800 physicians and over 35,000 employees that provide care at more than 800 locations, including 15 medical centers and hundreds of outpatient facilities and physician clinics. Headquartered in Winston-Salem, North Carolina, Novant Health is committed to making health care remarkable for patients and communities, providing nearly six million patient visits annually.

By bringing together world-class technology and clinicians to provide quality care, we are committed to creating a healthcare experience that is simpler, more convenient and more affordable so patients can focus on getting better and staying healthy.

Administration

Chad Setliff, president and chief operating officer

History

Novant Health Forsyth Medical Center was founded in 1887 as a 10-bed hospital inside a private home. Episcopal minister Henry O. Lacy worked with the Ladies Twin City Association and other volunteers to raise money for the hospital to address the community's growing need for healthcare. The Twin City Hospital existed in several different locations until 1959 when voters approved purchase of a 77-acre campus that is Novant Health Forsyth Medical Center's current home. In 2019, Forsyth Medical Center broke ground on a multiphase, \$400 million expansion which includes a new five-story, 193,480-square-foot tower with 60 critical care and 36 patient rooms. The project is scheduled for completion in 2024.
