Novant Health Presbyterian Medical Center

Overview

Novant Health Presbyterian Medical Center is a not-for-profit 590-bed hospital that consistently ranks among the best in the nation for quality. We are part of Novant Health, a three-state integrated network of physician clinics, outpatient facilities and hospitals that delivers a seamless and convenient healthcare experience to our communities. The Novant Health network consists of more than 1,800 physicians and over 35,000 employees that provide care at more than 800 locations, including 15 medical centers and hundreds of outpatient facilities and physician clinics. Headquartered in Winston-Salem, North Carolina, Novant Health is committed to making health care remarkable for patients and communities, serving more than 6 million patients annually.

We offer the latest in diagnostic and treatment services and provide specialized care to patients with cancer. We also are home to Novant Health Hemby Children's Hospital, which provides patients access to the most advanced research, programs, technologies and clinical techniques. Presbyterian Medical Center was Novant Health's first facility to receive a trauma designation, and is the first Charlotte hospital to be designated an Advanced Comprehensive Stroke Center.

By bringing together world-class technology and clinicians to provide quality care, we are committed to creating a healthcare experience that is simpler, more convenient and more affordable so patients can focus on getting better and staying healthy.

Administration

Saad Ehtisham, president and chief operating officer

History

Opened in 1903 as Presbyterian Hospital, the facility existed at several sites in uptown Charlotte before establishing a home on its 20-acre campus in 1918, where it remains today overlooking the Charlotte skyline. In 2016, Novant Health Presbyterian Medical Center became a level III trauma center. In 2021, Novant Health Presbyterian Medical Center became a UNC School of Medicine branch campus.

Accreditation

Novant Health Presbyterian Medical Center is fully accredited by The Joint Commission, an independent organization that evaluates a healthcare organization's performance in areas that most affect patient health and safety. In addition, we have earned some of the nation's top honors in quality care, including radiology, mammography, cancer care, pathology, laboratory services, epilepsy, and breast center accreditation.

Novant Health Presbyterian Medical Center also meets all criteria as a Comprehensive Center under the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP), a joint program of the American College of Surgeons (ACS) and the American Society for Metabolic and Bariatric Surgery (ASMBS). The MBSAQIP Standards ensure that bariatric surgical patients receive a multidisciplinary program, not just a surgical procedure, which improves patient outcomes and long-term success.
