

Installation and Configuration of IQSpeak plugin on iOS devices (iPhone, iPod Touch, iPad)

Minimum supported iOS version: 3.12

1. On the iOS device, launch the "App Store" application. 
3. In the App Store select "Search" and type one of the following:
For the IQMax version – "IQMax Mobile App"
4. Select the appropriate Application based on your search
5. Tap the "Free" button
6. Tap the "Install" button
7. When prompted, enter your iTunes Password (you may also be prompted for a user) ; select "OK".
8. Once the application has completed installation, launch the newly installed application by tapping on the applicable icon
9. You will be prompted to enter a System ID:
(Unless instructed differently by your administrator, select "Default".) 
10. You will be prompted to enter your IQMax user name and password. Please enter the user name and password and click "Login". 
11. You will be asked to register your device

Enter a description for the device and click "Save".

**This name should be meaningful to this specific device, and not a generic name. i.e. John Doe iPhone 3Gs 
12. Installation and configuration is now complete.
