

# Where should I go for care?

I don't have COVID-19 symptoms but still need care.

## This is an emergency:

If you are experiencing an emergency (heart attack or stroke symptoms, pregnancy-related issues, seizures, vomiting or bleeding that won't stop etc.), **call 911** or go to the nearest emergency room.

## This isn't an emergency:

Utilize our virtual care options for routine care. **Learn more at [NovantHealth.org/virtualcare](https://www.novanthealth.org/virtualcare).**
