

Hospital Pricing Information

Coastal Carolina Hospital, East Cooper Medical Center, Hilton Head Hospital

Guidelines established by the United States Department of Health and Human Services require hospitals to place a list of their standard charges on their website. This includes the hospital's standard charges for each diagnosis-related group (DRG). A diagnosis-related group provides a way to categorize the type of patients a hospital treats and covers all charges associated with an inpatient stay, from admission to discharge.

For Insured Patients

When reviewing standard charges, it is important to note that actual payment rates for hospital care provided to insured patients are:

- Negotiated with health plans
- Set by the federal government for Medicare
- Set by state governments for Medicaid

If you have private insurance and are interested in understanding what your "out-of-pocket" costs may be for the care you receive at our hospital, your healthcare insurance company will be in the best position to help you understand these costs. We encourage you to contact them.

For Uninsured Patients

Uninsured patients are not generally expected to pay the hospital's standard charges. If you are uninsured, you may be eligible for financial assistance through the hospital's Compact with Uninsured Patients.

At our hospital, all patients will be treated fairly and with respect during and after their treatment, and regardless of their ability to pay for the services they receive. Patients without insurance will be offered reasonable payments and payment schedules and, subject to their acceptance of the offer, will be billed at discounted local market rates. Whenever possible,

this will occur before the patients leave the hospital, as part of the financial counseling process.

Cost Estimate & Payment Plans

Please call one of our financial counselors at [833-850-5052](tel:833-850-5052) to receive a personalized quote and information about our payment plan options.

COVID-19 Test Pricing

The cash rate for COVID-19 laboratory testing is \$53.91.

Hospital Standard Charges

The following are machine-readable, comprehensive lists of hospitals' standard charges for services and supplies. ***The standard charges reflected likely differ from the payment amounts that hospitals receive for patient care.***
