

# Delivering excellence

## in obstetrics

At Novant Health, the region's premier choice for obstetric care, patients can count on:

Highly trained specialists

Committed team of nurses

An outstanding labor and delivery program

Expanded amenities, including a meal for new dads, bigger waiting room, quiet times in the unit to promote rest and bonding, and more

### In numbers

125 years  
of delivering babies

45+ years  
of being the only birthing center in Forsyth County

6,500 babies  
delivered annually

56 beds  
in our Level III NICU facility

1,200 babies  
who require specialty NICU care each year

### In the event of an emergency

Our experienced clinicians are **trained to expertly address the full spectrum of emergency events.**

We are dedicated to prompt **recognition and treatment of significant safety events**, including postpartum hemorrhage and hypertensive events.

We are introducing a **dedicated ob hospitalist available on-site 24/7.**

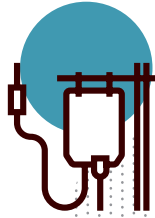

### Recognized leadership

Novant Health has a **strong reputation as the region's leading high-risk referral center.**

## Under one roof

**Physicians and patients alike can count on convenient, comprehensive obstetric care at one location.** Our facility is equipped to handle everything — prenatal assessment and labor and delivery suites, breastfeeding support and follow-up home care.

### Minimizing invasive operations

Our team works together to **reduce the incidence of C-sections.**

Novant Health seeks to reduce the rate of primary C-section to 22%.

### Treating neonatal abstinence syndrome (NAS)

We partner with families to **minimize the effects of NAS and help mother and baby recover quickly and safely.**

### Project investigation

We support the exploration of **next-generation solutions to improve maternal and fetal care** with a robust clinical trials program that focuses on topics such as:

Preeclampsia

Obstetric anesthesia

Hypertension
