PingID Installation and Registration Steps (continued)

11. Click **allow** for location
**message varies by device

Location will only be used to reduce authentication frequency

12. **Enter** nickname (e.g. first name), click **Done** then wait for next prompt

13. On your phone **swipe up** when prompted

If you denied notifications enter the 6 digit code from your phone

14. You have successfully registered for PingID! Be on the lookout for go-live dates in future

communications!

If you denied notifications you will not see this on your phone but you are still registered if you see the success message on your PC.

Close the PingID app and browser.

If you have any issues registering, please call the service desk at **1-866-966-8268**
